How to run the quiz

1. Split the guests into teams of 2–6. Give each team an answer sheet and a pen.
2. Read the welcome, then each round's intro. Read every question twice, or show it on the projector.
3. After each round, teams swap sheets and mark each other's while you read out the answers.
4. Write the points on the scoreboard and announce the standings before the last round.
5. Still a tie? The tie-breaker decides — the closest number wins.

Scoring

1 point per correct answer. For “guess the number” the closest team gets the point. For “put in order” only the complete correct order counts. Accept small spelling slips; the host's decision is final.
